Introduction of Bele Group:

Bele Group d.o.o. was established in 2021 as part of the Belamionix group with the goal of offering our customers the highest quality products. From the very beginning, our mission has been to become the leading Bosnian brand in the production of wet wipes.

What truly makes Bele Group special and confirms its strong position in the market is its perception as a domestic brand. Through dedicated work and continuous investment, we strive for greater success and the best possible results in order to meet the needs of our customers. Our services cater to people of all ages, from the youngest to the oldest. Production itself is a challenge, and building a strong and lasting brand that reflects high product quality is an added responsibility we proudly take on for our customers and end users.

Inspired by our consumers, we develop high-quality products and services that improve and simplify everyday life. In addition to wet wipes, we have created a complete range of household cleaning products, laundry detergents and fabric softeners, toilet paper, paper towels, car cleaning products, garbage bags, and more. We continuously strive to maintain the high quality of our products and offer our customers new and innovative solutions to make their lives easier.
